

Financial Support

As part of the National Irish Tourism Authority, we have financial support available to reiterate just how much your business means to our country. Whether you're an association conference, corporate meeting or incentive programme you could be eligible.

Bid Support

If you are looking to bid for an international conference to come to Ireland, we can cover all costs incurred in producing the bid document. There is also funding available if there is a requirement to travel to present such a bid.

Site Inspection Funding

Let us put your mind at ease, and invite you to Dublin to envision your event. We can cover the cost of flights and accommodation, and help with on the ground costs as well as the actual site inspection logistics.

Programme Enhancement

We want to make your Dublin edition your most successful event yet, and our programme enhancement grant is here to do just that. This fund can be used at your discretion, but we recommend using it to add that extra Irish element to your event.

All financial support is subject to certain criteria. To see if you are eligible and make your application, please see the link below. All three elements of financial support can be applied for under the same application. More information below:
