

Air Access

Ireland, ideally located on the edge of Europe, is less than an hour from London, less than two hours from Paris or Brussels and just six hours from the east coast of the US by air. Dublin International Airport is only 12km from the city centre and the city itself is small and compact and is tailor-made for getting places by foot.

Dublin is home to the country's largest airport, which is served by over 170 different direct routes. For connecting flights, we're within an hours flight time of many European hubs. US travellers can enjoy US pre-clearance of emigration of customs within the airport, so when they return home they simply walk of the plane and out of the airport.
